🐦 @MauriceFilo

GOAL

My interdisciplinary training in electrical and mechanical engineering, together with my work in systems and synthetic biology, is unified by a focus on control and dynamical-systems theory. My goal is to make biomolecular feedback design as principled and reliable as in engineered systems by integrating stochastic/nonlinear control, chemical reaction network theory, and reinforcement learning for GenAI.

EDUCATION

Postdoctoral Researcher, Control Theory and Systems Biology (CTSB), Prof. Mustafa Khammash
Eidgenössische Technische Hochschule (ETH) Zürich

📅 2018-2023

📍 Basel, Switzerland

Ph.D. & Masters in Mechanical Engineering, Prof. Bassam Bamieh
University of California, Santa Barbara (UCSB)

📅 2013-2018

📍 California, USA

- Ph.D. Dissertation: Topics in Stochastic Stability, Optimal Control & Estimation Theory
- Master Thesis: Topics in Modeling of Cochlear Dynamics: Computation, Response & Stability Analysis
- Majors: Dynamic Systems, Control & Robotics (DSCR), Computational Science & Engineering (CSE) GPA: 4/4

Masters in Electrical & Computer Engineering
American University of Beirut (AUB)

📅 2010-2013

📍 Beirut, Lebanon

- Master Thesis: Nonlinear Nonlocal Two Dimensional Cochlear Modeling
- Majors: Control Theory, Signal & Image Processing GPA: 4/4

Diploma in Electrical Engineering
Lebanese University (LU)

📅 2005-2010

📍 Beirut, Lebanon

- Diploma Thesis: Demining Robot Vision
- Majors: Control & Power Systems First-Class Honours

FELLOWSHIPS & AWARDS

- 🏆 **Ranked First in the 2023 Competition for the Research Officer Position at INRIA, France (Declined by Applicant)**
https://www.inria.fr/sites/default/files/2023-06/Resultats_Results_admission_ISFP_2023_2.pdf
- 🏆 **"PID Feedback Control Systems for Robust Control of Molecular Networks" ranked among the Top 20 Inventions**
Spark Award (2021), <https://ethz.ch/en/industry/researchers/ip/sparkaward/2021.html>
- 🏆 **Best PhD Thesis Award**
Center for Control, Dynamical-Systems & Computations (CCDC) (2019)
- 🏆 **Featured as the Researcher of the Term**
Center for Control, Dynamical-Systems & Computations (CCDC) (2016)
<https://www.ccdc.ucsb.edu/content/maurice-filo>
- 🏆 **Best Teacher Assistant Award**
Department of Mechanical Engineering, UCSB (2015)

CCDC Fellowship

Center for Control, Dynamical-Systems & Computations (CCDC) (2013)

Holbrook Foundation Fellowship

Institute for Energy Efficiency (IEE), UCSB (2013)

CONTRIBUTED TALKS & CONFERENCE SESSIONS

From Genetic Feedback Control to AI-Designed Biomolecular Networks

2026 Information Engineering Division Conference, University of Cambridge

Realizing Reduced and Sparse Biochemical Reaction Networks from Dynamics

2025 Conference on Decision and Control (CDC) in Rio Di Janeiro, Brazil

Engineering Genetic Controllers to Accelerate Adaptation and Attenuate Cellular Noise

2024 CUED Control Group Seminars, University of Cambridge, UK

Organized and chaired an invited conference session on Biological Controllers

2022 Conference on Decision and Control (CDC) in Cancun, Mexico

Distributed Structured Stochastic Uncertainties, Cochlear Instabilities

26th International Symposium on Mathematical Theory of Networks and Systems in Cambridge, UK

Organized and chaired an invited conference session on Biological Controllers

2022 Conference on Decision and Control (CDC) in Cancun, Mexico

Exploiting the Nonlinear Structure of the Antithetic Integral Controller to Enhance Dynamic Performance

2022 Conference on Decision and Control (CDC) in Cancun, Mexico

Optimal Parameter Tuning of Feedback Controllers with Application to Biomolecular Antithetic Integral Control

2019 Conference on Decision and Control (CDC) in Nice, France

A Block Diagram Approach to Stochastic Calculus with Application to Multiplicative Uncertainty Analysis

2018 Conference on Decision and Control (CDC) in Miami, USA

A Function Space Approach to Gradient Descent in Optimal Control

2018 American Control Conference (ACC) in Wisconsin, USA

Investigating Cochlear Instabilities Using Structured Stochastic Uncertainty

2017 Conference on Decision and Control (CDC) in Melbourne, Australia

Sensor Motion for Optimal Estimation in Distributed Dynamic Environments

2017 American Control Conference (ACC) in Seattle, Washington

Possible Sources of Instabilities in the Cochlea

2015 SIAM Conference on Applications of Dynamical Systems in Snowbird, Utah

RESEARCH EXPERIENCE

Postdoc & Senior Research Scientist

Eidgenössische Technische Hochschule (ETH) Zürich

📅 2018 – present

📍 Basel, Switzerland

* co-first author, † corresponding author

- Developed a **Generative AI** approach to design reaction networks with pre-specified properties.
- Led a subgroup of biologists and engineers to design, model, analyze, and test advanced **genetic control systems**.
- Designed and analyzed a library of biomolecular **Proportional-Integral-Derivative (PID)** controllers (patent pending).
- Established a unifying **model analysis and reduction theory** for intein-based controllers (patent pending).
- Designed molecular reaction networks capable of realizing **anti-windup** schemes.
- Studied **the impact of resource burden on genetic circuits** and developed guidelines to minimize their effects.
- Designed and implemented a numerical method for the **optimally tuning parameters** of nonlinear feedback controllers.
- Developed a user-friendly **MATLAB application** for modeling and simulating biomolecular controllers in both deterministic and stochastic environments (youtube link: <https://www.youtube.com/watch?v=SeFFJz4dxOA>).
- Served as a review editor and reviewer for multiple journals and conferences.
- Co-authored and co-conceived **two successfully awarded proposals**—SNSF Advanced Grant (216505) and ERC Advanced Grant (2024), lead by Prof. Mustafa Khammash as PI.

Graduate Research Assistant

University of California, Santa Barbara (UCSB)

📅 2013 – 2018

📍 California, USA

- Developed a mathematical framework for **optimal field estimation via mobile tomographic sensors**.
- Designed and implemented a new numerical method for solving **optimal control** problems.
- Developed a framework for studying **stochastic stability** of dynamical systems with stochastic uncertainties.
- Developed a stochastic **biomechanical model for the cochlea** with connections to otoacoustic emissions and tinnitus.
- Devised multiple numerical techniques for **efficient simulations** of cochlear models.
- Studied mean-square stability in **infinite-dimensional** stochastic dynamical systems.

Graduate Research Assistant

American University of Beirut (AUB)

📅 2011 – 2013

📍 Beirut, Lebanon

- Designed, implemented and analyzed an **efficient model reduction** scheme for the cochlea.
- Designed and implemented a **deep machine learning algorithm** for capturing the style of **piano composers**.

TEACHING EXPERIENCE

Lecturing & Lab Tutoring

Ashesi University

📅 2023, 2024

📍 Ghana, Africa

- Participated in the ETH for Development (ETH4D) Master program in Mechatronics.
- Assisted in developing course materials for advanced control systems design and analysis.
- Delivered lectures and managed exercise and office hours sessions.
- Prepared and conducted hands-on tutorials on robotic programming of control algorithms, including LQR and LQG.

Lecturing & Graduate Students Supervision

Eidgenössische Technische Hochschule (ETH) Zürich

📅 2018-present

📍 Basel, Switzerland

- Introduction to Dynamical Systems with Professor Mustafa Khammash
- Advanced Bioengineering with Professor Mustafa Khammash
- Computational Biology & Bioinformatics Seminar
- Co-supervision of 3 Master Students (1 Master Thesis and 2 Master Projects)
- Co-supervision of 2 Doctoral Students

Teaching Assistant

University of California, Santa Barbara (UCSB)

📅 2013 – 2015

📍 California, USA

- Mechatronics lab instructor with Professor Bassam Bamieh
 - Vibrations with Professor Igor Mezic
 - Control Systems with Professor Bradley Paden
-

Teaching Assistant

American University of Beirut (AUB)

📅 2011 – 2013

📍 Beirut Lebanon

- Graduate course in Pattern Recognition with Professor Mariette Awad
 - C++ lab instructor
 - Electronics lab instructor
-

FIELD WORK EXPERIENCE

Electrical Engineer Intern

National Oilwell Varco (NOV)

📅 Summer 2009

📍 Dubai, UAE

- Troubleshooting of faults in Silicon Controlled Rectifier (SCR) rooms.
 - Complete reassembling of SCR units for maintenance.
-

Electrical Engineer Intern

Electricité De Zahle (EDZ)

📅 Summer 2008

📍 Zahle, Lebanon

- Maintenance of power grids.
 - Installations of new power transformers and transmission lines.
 - Development of software power grids in Zahle using Geographic Information System (GIS).
-

PROGRAMMING & SOFTWARE SKILLS

MATLAB

Simulink

Simscape

LabVIEW

C

C++

Python

PyTorch

Julia

LaTeX

PIC

PLC

SBRIO

NICVS

Blender

TikZ

Adobe Illustrator

EXTRACURRICULAR EXPERIENCE

Private Piano Teacher

📅 2004 – 2013

📍 Lebanon

Music Major, Lebanese National Conservatory

📅 1993 – 2005

📍 Zahle & Beirut, Lebanon

- Piano, Music Theory, Solfege and Harmony.

Classical Piano Concert

📅 April, 2004

📍 Grand Kadri Hotel, Lebanon
